

THANK YOU FOR INQUIRING INTO SPEE DEE DELIVERY!

Spee Dee Delivery Service, Inc. was founded in 1978 in St. Cloud, MN and began by serving a seven-county area in central Minnesota. Our "geographical footprint" has since grown to encompass nine states. Regular delivery service is now provided to all of Illinois, Iowa, Minnesota, North Dakota, South Dakota and Wisconsin, as well as select cities and ZIP Codes in Missouri, Nebraska and Michigan's Upper Peninsula. While most customers enjoy next-day delivery, shipping between certain points can be second-day or third-day delivery.

Spee Dee Delivery's rates are very competitive. We do not impose all the accessorial charges that are common with other carriers. Spee Dee Delivery also does NOT charge Dimensional (DIM) Weight pricing. We offer Shipment Weight pricing, which is a discounted rate program for multiple package shipments to the same location.

Spee Dee Delivery administers size and weight guidelines on packages it accepts for delivery. We currently accept packages up to 170 inches (length and girth combined) with a maximum length of 10 feet within our parcel network. The maximum weight we will accept through our parcel network is 150 lbs.

Spee Dee Delivery offers specialized services that give customers increased shipping flexibility. Our On-Call Service is offered to daily shippers as well as customers without an established account. It gives customers added shipping options including drop shipments. And the addition of Spee Dee LTL gives customers the option of shipping larger and heavier packages, as well as pallet orders. Contact us at (800) 862-5578 to learn more about these specialized services.

We also offer additional services such as COD's, Pick-Up Tags, Address Corrections, Spee-Dee EZR (Easy Returns Service), and the delivery of certain Hazardous Materials, all of which are competitively priced.

Spee Dee Delivery strives to remain up-to-date with the latest technological advances. Our drivers electronically gather delivery information on a handheld computer - including an actual electronic signature, name verification, and time and date of delivery. Customers may opt to utilize our online tracking feature. Otherwise, a proof of delivery may be obtained by calling a Spee Dee Delivery Customer Service Representative, who can often provide the information while the customer is on the line. We also offer Spee Dee Ship Software at no cost, which provides shippers with an efficient means of recording daily shipments, while optimizing those shipments to provide customers with the best available pricing.

Thank you for your interest in Spee Dee Delivery.
We look forward to becoming *your* preferred carrier in the Midwest.
